There is No Justice When Blacks Are the Victims

My name is Walter Ellis, an AFRICAN AMERICAN born April 23, 1938 who believes and can confirm that most AFRICAN AMERICANS cannot receive justice in the United States of America, the most racist system in the World. It is obvious that when AFRICAN AMERICANS have complaints, or seek justice, nobody answer or investigate. My purpose is to make the universe aware of the discriminatory, racist practices suffered by most AFRICAN AMERICANS in this United States of CAUCASIAN America.

My father John Ellis who was born September 1889 in Alabama and most likely a slave. He was a hobo who used trains as his main means of transportation. In his youth he later moved to West Virginia, fought with John L. Lewis assisting in forming the UNITED MINE WORKERS of AMERICA, purchased properties, built a business and raised the four children (2 brothers and a sister). These successes were accomplished with him having a 3rd grade education.

Dad, a CIVIL RIGHTS ACTIVIST, always said he "wouldn't take any shit off anyone" and was a chronic curser. One his favorite quotes was "AFTER ME THERE IS NO MORE".

Since his demise in 1965, I always considered myself as a CIVIL RIGHTS ACTIVIST and try not to take any shit off anyone, I am a chronic curser and have adopted my father's quote "AFTER ME THERE IS NO MORE".

If Trump starts a war, he should take his Family, Friends??, and "ALL" who agree with him and his ILK to Russia and live happily thereafter--The SOB, WHITE SUPREMACIST , Racist BASTARD
It has been my contention that when AFRICAN AMERICANS make complaints Federal agencies and the Judicial System most times fail to investigate.

Quote by Forensic Anthropologist Clyde C. Snow regarding Abuse of Police Powers:

"Of all the forms of murder, none is more monstrous than that committed by a state against its own citizens. And of all murder victims, those of the state are the most helpless and vulnerable since the very entity to which they have entrusted their lives and safety becomes their killer. Thus, it is especially important that states be called to account for their deeds."

An African American Police Officer, in 1966-1969

As an African American Police Officer, the 5th hired at that time by the (Riverside police Department) RPD was familiar with why, "The officers were white, the men charged with their slayings were black, and the case brought racial strife to Riverside....." This writing goes on to say, "a city that had proudly completed voluntary school desegregation that previous decade."

During my interview prior to being hired for the RPD, LT. Randell asked me, "what I would do if my fellow officer would address me as a Nigger?). My first inclination was that I would call him a cracker, but I thought that might have caused me not to be hired and stated as my Mother had taught me is to ignore such remarks. Months later I asked some of my fellow white officers if they had been asked similar questions during their interviews, and they all stated they had not been asked such questions.

In 1965, months after being hired by Riverside Police Department, RPD I was very discouraged when I entered the briefing room before beginning a shift to see on the bulletin board in large letters "Casa Blanca 2, RPD 0", after two Hispanic youths were killed by RPD Officers. The killing of the first youth, I believe to be approximately 14 years of age was shot in the back after an accusation of a minor theft. I was told later by my Senior Training Officer that the police had lied regarding the circumstance of this shooting to avoid liability. I was advised by this Officer that the Officer shooting the youth had mistakenly shot the youth.

RPD had Police officer(s) who served as part time dispatchers who referred to African Americans as "NI**ERS" and were not sanctioned by his supervisors.

The RPD was so narrowing minded during the assignation of the two officers that they blocked out the involvement of any whites. "A rookie police officer's account of seeing, questioning -- but not detaining -- Lawton at Bordwell Park near the shooting just minutes after the incident was not reported by him until weeks later, after Lawton's arrest." If this suspect was Mr. Lawton he was released because he appeared to be white.

An article by Richard K. DeAtley / The Press-Enterprise:

"The officers were white, the men charged with their slayings were black, and the case brought racial strife to Riverside....." This writing goes on to say, "a city that had proudly completed voluntary school desegregation that previous decade."

"A lot of people know what happened," Tennell said of the Christiansen and Teel slayings. "People didn't talk out of fright, or didn't care, or were happy that some white cops got killed. A lot of people didn't open their mouths."
